Report on the Audit of the Financial Statements

Disclaimer of Opinion

We were engaged to audit the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Williamsport ("City"), as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

We do not express an opinion on the accompanying financial statements of the City. Because of the significance of the matters described in the Basis for Disclaimer of Opinion section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion

Due to the unavailability of audit information, turnover in key accounting and management positions, pending/ongoing investigations with state/federal agencies, and omission of the River Valley Transit and the Williamsport Parking Authority financial statements, a business-type activity and proprietary fund and discretely presented component unit, respectively, we were unable to perform the necessary audit procedures over the City's financial statements. The effects of the matters listed in the previous sentence on the City's financial statements at this time is undeterminable and we are unable to quantify any misstatement(s) that might be necessary to the City's financial statements.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our responsibility is to conduct an audit of City's financial statements in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and to issue an auditor's report. However, because of the matter described in the Basis for Disclaimer of Opinion section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit.

Other Matters

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinions on the financial statements are not affected by this missing information.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Schedules of Changes in Net Pension Liability and Related Ratios - Pension Trust Funds on pages 50 through 52, Schedules of Employer Contributions - Pension Trust Funds and Schedules Investment Returns - Pension Trust Funds on pages 53 through 54, and Schedule of Changes in the City's Total OPEB Liability and Related Ratios on page 56 be presented to supplement the basic financial statements. Such information, is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

The combining nonmajor governmental and fiduciary fund financial statements on pages 57 through 60 are presented for the purpose of additional analysis and are not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 6, 2024, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and in considering the City's internal control over financial reporting and compliance.

CITY OF WILLIAMSPORT, PENNSYLVANIA
RECONCILIATION OF THE STATEMENT OF REVENUES,
EXPENDITURES, AND CHANGES IN FUND BALANCE OF
GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
YEAR ENDED DECEMBER 31, 2021

Net Change in Fund Balance - Governmental Funds	$	1,042,013
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlays as expenditures ($2,184,815). However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense ($3,839,808) and a net transfer to the Williamsport Sanitary Authority of ($2,779,668) . This is the amount of capital assets recorded in the current period, net of depreciation expense.		(4,434,661)
The repayment of principal on capital leases is expended in the funds; however, such payments reduce the capital lease liability within the statement of net position. This amount represents the dollar value of principal payments made on capital leases payable for the year ended December 31, 2021.		176,471
Certain compensated absences payable are considered long-term in nature and, are not reported as liabilities within the funds. Such liabilities are, however, reported within the statement of net position, and changes in these liabilities are reflected within the statement of activities. This amount represents the change in long-term compensated absences payable for the year ended December 31, 2021.		(151,615)
Other postemployment benefits payable are considered long-term in nature and, are not reported as liabilities within the funds. Such liabilities are, however, reported within the statement of net position, and changes in these liabilities are reflected within the statement of activities. This represents the change in the other postemployment benefits liability and related deferred outflows and inflows related to the City's other postemployment benefits plans.		(4,606,721)
Reduction in long-term receivable with Williamsport Parking Authority		(21,839)
Internal service funds are used by management to charge the operating costs of City Hall to individual funds. The operating income of the internal service fund (City Hall Operating Fund) is reported within the governmental activities.		(191,593)
Issuance of long-term debt provides current financial resources to governmental funds. Also, government funds report the effect of original issue discounts or premiums when debt is first issued, where as these amounts are deferred and amortized in the statement of activities and are included here as a reconciling item.		
Reconciling items relating to long-term debt activities are as follows:		
Repayment of principal		986,283
Issuance of capital leases		(213,141)
Accretion of original issue premium/discount		40,689
Net pension liability is considered long-term in nature, and is not reported as a liability within the funds. Such liability is, however, reported within the statement of net position, and changes in the liability are reflected within the statement of net position. This represents the change in pension liability and related deferred outflows and deferred inflows related to the City's pension plans.		2,023,431
Revenues related to real estate taxes and certain grant funding in the statement of activities that do not provide current financial resources are not reported as revenue in the funds.		479,525

1. Summary of Significant Accounting Policies

The following notes to the basic financial statements are an integral part of the City of Williamsport, Pennsylvania's (the "City"), financial statements.

Reporting Entity

Williamsport is the largest city in north-central Pennsylvania. It is a city of the third class, incorporated on January 15, 1866, and operates under an elected Mayor-Council form of government. The City provides many services to its estimated 30,000 residents, including general government services, public safety (police, fire, emergency management and protective inspection), maintenance of streets and parks, and community enrichment programs.

The financial statements of the City include the accounts of the City's primary government and one blended component unit, the Redevelopment Authority of the City of Williamsport, over which the City exercises significant influence. The financial statements of the River Valley Transit, a Business-Type Activity and Proprietary Fund, and the Williamsport Parking Authority, a discretely presented component unit, have not been included in the financial reporting entity for the 2021 reporting year. Significant influence or accountability is based primarily on operational or financial relationships with the City (as distinct from legal relationships). The City Council and/or the City's Mayor appoints a voting majority to the Board of Directors of both component units. Separately issued financial statements of the Redevelopment Authority of the City of Williamsport (the "Redevelopment Authority") can also be obtained from its office, located at 100 West Third Street, Williamsport, Pennsylvania 17701.

Blended Component Unit	Brief Description of Activities and Relationship to the City
The Redevelopment Authority provides for the acquisition and demolition of properties, economic development and shopsteading loans, and historic rehabilitation and preservation. This assistance is funded primarily through federal grants from the City's Community Development Block Grant ("CDBG") program.	A continuing financial relationship exists between the City and the Redevelopment Authority under the terms of a cooperative agreement between the City and the Redevelopment Authority. According to the terms of this agreement, the Redevelopment Authority will, among other things, provide CDBG and other funding as necessary, prepare loan agreements and mortgages and obtain collateral for loans. In addition, the City's Mayor appoints a voting majority to the Board of Directors of the Redevelopment Authority. In 2024, the Redevelopment Authority separated operations from the City.

Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct* expenses are those that are clearly identifiable with a specific function or segment. *Program* revenues include: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not property included among program revenues are reported as *general revenues.*

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 365 days of the end of the current fiscal period with the exception of property taxes, which must be received within 60 days of the end of the current fiscal period to be deemed available.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service, compensated absences, net pension and other post-employment benefit liabilities expenditures are recorded only when payment is due.

Property taxes, intergovernmental revenues, charges to services and interest associated with the current fiscal period are all generally considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

Generally, the effect of interfund activity has been eliminated from the government-wide financial statements.

Amounts reported as *program revenues* include charges to customers or applicants for goods, services, or privileges provided and operating grants and contributions. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally results from providing services and producing and delivering goods in connection with proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise fund are charges for services (primarily bus fares and rental income). Operating

expenses for the enterprise fund include the cost of services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

The government-wide and proprietary fund financial statements utilize a net position presentation. Net position is categorized as net investment in capital assets, restricted and unrestricted.

- *Net Investment in Capital Assets* – This category groups all capital assets, including infrastructure, into one component of net position. Accumulated depreciation and the outstanding balances of debt that are attributable to the acquisition, construction or improvement of these assets reduce the balance in this category.

- *Restricted Net Position* – This category presents external restrictions imposed by creditors, grantors, contributors or laws or regulations of other governments and restrictions imposed by law through constitutional provisions or enabling legislation.

- *Unrestricted Net Position* – This category represents net position of the City, not restricted for any project or other purpose.

Governmental Funds

General Fund

The General Fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund. All general tax revenues and other receipts that are not restricted by law or contractual agreement to some other fund are accounted for within this fund. General operating expenditures, fixed charges and capital improvement costs that are not paid by other fund are paid from the General Fund. The General Fund is always a major fund.

Special Revenue Funds

Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than special assessments, expendable trusts, or major capital projects) that are legally restricted to specified purposes. The major Special Revenue Funds reported by the City under this generic heading are the HOME fund and American Rescue Plan Fund. The HOME fund does not adopt an annual operating budget; rather, the City prepares a multi-year budget that coincides with the federally mandated period of availability of funds. The American Rescue Plan Fund does adopt a multi-year budget. Other nonmajor Special Revenue funds reported by the City include:

- The Community Development Block Grant ("CDBG") Fund accounts for the City's annual CDBG allocation from the U.S. Department of Housing and Urban Development. This funding is used by the City for loans meeting certain program requirements, various City projects and program administration.

- Non-Revenue Escrow Fund primarily consists of capital escrow funds and grant proceeds, which will be spent over several years.

- The Liquid Fuels Fund accounts for state aid revenues used for building, improving and maintaining City streets.

- The Home Rehabilitation Fund accounts for the operations of the City's Home Rehabilitation program, which was funded in part by federal funds whose use is restricted for the provision of specified home rehabilitation services to eligible City residents.

- The Redevelopment Authority of the City of Williamsport is a blended component unit of the City. Additional details pertaining to the operations of the Redevelopment Authority may be found elsewhere in this section.

- The Act 13 Fund accounts for funds received from the Pennsylvania Public Utility Commission under Act 13 – The Unconventional Gas Well Impact Fee. These funds may be used for a number of eligible purposes including roadways, bridges, public infrastructure, housing, information systems, and planning, among other things.

- The Pool Repair Fund accounts for revenues and expenditures related to the ongoing maintenance and repair of the City's Memorial pool.

Capital Projects Fund

The Capital Projects Fund (a major fund) is used to account for financial resources to be used for the acquisition or construction of major capital facilities or assets (other than those financed by proprietary funds and trust funds).

Debt Service Fund

The Debt Service Fund (a nonmajor fund) is used to account for financial resources to be used for the payment of principal and interest on the City's long-term debt obligations.

Proprietary Funds

Internal Service Fund, City Hall Operating Fund

This fund is used to account for the financing of good or services provided by one department to other departments of the City on a cost-reimbursement basis. The City Hall Operating Fund comprises this fund type. The City Hall Operating Fund is used to allocate the cost of the operations of City Hall among the various departments of programs that occupy the building.

Fiduciary Funds

Pension Trust Funds

Pension trust funds are used to report the resources that are required to be held in trust for the members and beneficiaries of defined benefit pension plans. The City maintains three single-employer defined pension trust funds; the Fire Pension Trust Fund, the Police Pension Trust Fund, and the Officers and Employees Pension Trust Fund.

Custodial Funds

Custodial funds are used to report resources held by the City in a purely custodial capacity. Custodial funds reported by the City in the accompanying financial statements include the Tax Collecting Fund, Payroll Revolving Fund, and certain sub-funds the City holds as a fiscal agent that are accounted for within the Non-Revenue Escrow Fund (which are presented separately for financial reporting purposes).

Government Accounting Standards Board (GASB) Pronouncements

The City adopted the remaining provisions of Statement No. 84, "*Fiduciary Activities*". The adoption resulted in the restatement of net position (Note 17).

The City adopted the provisions of Statement No. 89, "*Accounting for Interest Cost Incurred before the End of a Construction Period".* The adoption of this statement had no effect on previously reported amounts.

Pending Governmental Accounting Standards Board (GASB) Statements

In June 2017, the GASB issued Statement No. 87, "*Leases*". The City is required to adopt statement No. 87 for its calendar year 2022 financial statements.

In May 2019, the GASB issued Statement No. 91, "*Conduit Debt Obligations*". The City is required to adopt Statement No. 91 for its calendar year 2022 financial statements.

In January 2020, the GASB issued Statement No. 92, "*Omnibus 2020*". The City is required to adopt Statement No. 92 for its calendar year 2022 financial statements.

In March 2020, the GASB issued Statement No. 93, "*Replacement of Interbank Offered Rates*". The City is required to adopt Statement No. 93 for its calendar year 2022 financial statements, except for the requirements of paragraph 11b, 13, and 14 which are effective for its calendar year 2023 financial statements.

In March 2020, the GASB issued Statement No. 94, "*Public-Private and Public-Public Partnerships and Availability Arrangements*". The City is required to adopt the provisions of Statement No. 94 for its calendar year 2023 financial statements.

In May 2020, the GASB issued Statement No. 96, "*Subscription-Based Information Technology Arrangements*". The City is required to adopt Statement No. 96 for its calendar year 2023 statements.

In June 2020, the GASB issued Statement No. 97, "*Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans—an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32*". The City is required to adopt Statement no. 97 for its calendar year 2022 financial statements.

In April 2022, the GASB issued Statement No. 99, "*Omnibus 2022*". The City is required to adopt the provisions related to leases, PPP's, and SBITA's for its calendar year 2023 financial statements, while the provisions relating to financial guarantees and the classification and reporting of derivative instruments are required to be adopted by the City for its calendar year 2024 financial statements.

In June 2022, the GASB issued Statement No. 100, "*Accounting Changes and Error Corrections*". The City is required to adopt Statement No.100 for its calendar year 2024 financial statements.

In June 2022, the GASB issued Statement No. 101, "*Compensated Absences*". The City is required to adopt Statement No.101 for its calendar year 2024 financial statements.

In December 2023, the GASB issued Statement No. 102, "*Certain Risk Disclosures*". The City is required to adopt Statement No.102 for its calendar year 2025 financial statements.

In April 2024, the GASB issued Statement No. 103, "*Financial Reporting Model Improvements"*. The City is required to adopt Statement No. 103 for its calendar year 2026 financial statements.

In September 2024, the GASB issued Statement No. 104, "*Disclosure of Certain Capital Assets*". The City is required to adopt Statement No. 104 for its calendar year 2026 financial statements.

The City is currently in the process of determining the impact that the above GASB Statements will have on the financial statements.

Cash Equivalents

The City considers highly liquid short-term instruments purchased with a maturity of three month or less (excluding certain short-term instruments which are classified as investments) to be cash equivalents.

Investments

Investments of the Officers' and Employees', Firemen's and Police pension plans are stated at fair value for both reporting and actuarial purposes. Investment purchases are recorded as of the trade date. Securities traded on a national or international exchange are valued as the last report sales price at current exchange rates. Investments that do not have an established market are generally reported at cost, which is not expected to be materially different from fair value.

Receivables

All trade and property tax receivables are shown net of allowance for uncollectibles.

Property Tax Calendar

The City is responsible for the assessment, collection, and apportionment of property taxes for all jurisdictions, including the schools within the City. Taxes are due in one installment on or before June 30 following the levy date. Taxes not paid or exonerated become delinquent on December 31. The City collects taxes up to December 31 of the same year (payments post-marked by December 31 but received shortly after year-end are considered as having been collected for accounting purposes). Subsequent to year-end, all unpaid property taxes are certified to the Lycoming County Delinquent Tax Office for further collection and possible tax sales over an additional 36-month period. Current tax collections for the year ended December 31, 2021 were 93.09 percent of the tax levy.

Inventory

Inventories in the General Fund consist of gasoline and postage. Inventory is valued at the lower of cost (first-in, first-out) or market.

Capital Assets

Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated fixed assets are recorded at their estimated acquisition value at the time of acquisition.

Beginning on January 1, 2003, the City began to prospectively capitalize its investment in infrastructure assets pursuant to GASB Statement No. 34. Infrastructure assets include long-lived, immovable capital assets such as road systems, bridges, curbs and gutters, sidewalks, drainage systems and lighting systems. During 2007, the City retroactively reported its major general infrastructure acquired significantly reconstructed, or significantly improved from January 1, 1980 through December 31, 2002, pursuant to GASB Statement No. 34. As a general rule, infrastructure acquired prior to 1980 is not capitalized.

Normal maintenance and repairs are charged to expense as incurred; major renewals or betterments which extend the life or increase the value of assets are capitalized.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

	Governmental Activities
Buildings and improvements	40 years
Machinery and equipment	10-20 years
Furniture and fixtures	15-20 years
Office equipment	5-15 years
Computer equipment	5 years
Vehicles	5-10 years
Streets and roadways	20 years
Curbing and sidewalks	20 years

Liabilities for Compensated Absences

City employees are awarded vacations each year based upon the number of years served through December 31 of the preceding year. The City's policy generally provides that employees will be compensated for earned but unused vacation at retirement or termination.

The City's sick leave policy provides sick time to each employee. Employees are permitted unlimited accumulation of sick time. Detail of the sick leave policies in effect for the individual labor contracts are as follows:

- City Firemen are compensated at the rate of 30 percent of the employee's regular rate at retirement, for all unused sick time accumulated from January 1, 1999 through the date of retirement, not to exceed 120 days. In addition to this, City Firemen are compensated at the rate of one day per three days of sick leave accumulated through December 31, 1998, at the employee's regular rate at that date;

- City Policemen are compensated at the rate of 15 percent of the employee's regular rate for accumulated sick leave upon retirements, up to a maximum of 240 days;

- Employees covered under the AFSCME labor contract are compensated $20 for each three day unit of unused sick time, up to a maximum of 160 three day units (360 days) for a maximum of $3,200 upon retirement. All other accumulated sick time is forfeited at that time, and;

- All other non-contract employees utilize the same plan as the employees covered under the AFSCME contract.

Under the Fair Labor Standards Act, employees are permitted to accrue up to 240 hours (480 hours for police and firemen) of compensatory ("Comp") time for hours worked beyond 40 hours in any one week. Comp time is awarded at the premium rate of time and one-half for hours worked over a 40 hour period. Upon termination of employment, any accumulated Comp time will be paid at a rate not less than the average regular rate of pay over the employee's last three years of employment or the final regular rate, whichever is higher.

Unearned Revenue

Unearned revenue consists of receivables not collected within 60 days subsequent to the City's year-end (fund-perspective financial statements), grant revenues received but not yet expended,

and loans receivable associated with grant-funded revolving loan pools. It is expected that these items will be included in revenues of future fiscal years.

At December 31, 2021, the HOME, Capital Projects, American Rescue Plan Fund, and Non-major funds had unearned revenues of $2,564,176, $1,547,724, $12,738,900 and $1,243,100 respectively.

Deferred Outflows/Inflows of Resources

In addition to assets, the City will sometimes report a separate section for deferred outflows (inflows) of resources. This separate financial statement element represents a consumption (acquisition) of net position that applies to a future period and so will not be recognized as an outflow (inflow) of resources until that time.

Governmental Fund Balance Classification/Policies and Procedures

In accordance with GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, the City classifies its governmental fund balances as follows:

- *Non-spendable* – includes fund balance amounts that cannot be spent either because it is not in spendable form or because of legal or contractual constraints, such as inventory
- *Restricted* – includes fund balance amounts that are constrained for specific purposes which are externally imposed by providers, such as creditors or amounts constrained due to constitutional provisions or enabling legislation
- *Committed* - includes fund balance amounts that are constrained for specific purposes that are internally imposed by the City through formal action of the City's "highest level of decision-making authority" which do not lapse at year-end
    - City Council is its highest level of decision-making authority, and
    - City Council commits funds through a formal board motion
- *Assigned* – includes fund balance amounts that are constrained for specific purposes that are internally imposed by the City
    - City Council authorized the City Budget & Fiscal Officer to assign funds to specific purposes
    - City Council passed a board motion authorizing assignments for activities as contemplated by Council
- *Unassigned* – includes positive fund balances withing the General Fund which have not been classified within the above mentioned categories and negative fund balances in other governmental fund

When a governmental funds expenditure is incurred that can be paid using either restricted or unrestricted resources, the City's policy is generally to first apply the expenditure toward restricted resources and then to unrestricted resources.

When an expenditure is incurred that can be paid using either committed, assigned, or unassigned amounts, the City's policy is generally to apply the expenditure to committed resources, then to assigned resources, and then to unassigned resources.

Pension Plans

The City provides separate defined benefit pension plans for general employees, Police and Fire department personnel. It is the City's policy to fund its annual required contribution.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

2. Budgetary Procedures and Budgetary Accounting

The City utilizes the Executive Budget approach to budgetary control. This approach requires the chief executive (i.e., Mayor), together with the Department of Finance, to prepare and submit a governing financial plan to the legislative body on an annual basis. The City prepares its budgets for each fund type in accordance with accounting principles generally accepted in the United States of America ("GAAP" basis).

All transfers or supplemental appropriations must be enacted by City Council. During the year, all transfers and appropriations were approved by City Council, in accordance with the Pennsylvania Third Class City Code. Actual expenditures and operating transfers out may not legally exceed "budget" appropriations at the individual fund level. Budgetary control, however, is maintained at the line item level.

Appropriations lapse at the close of the fiscal year to the extent that they have not been expended or encumbered.

Accounting principles generally accepted in the United States of America require that the City include a combined statement of revenues, expenditures and changes in fund balance – budgeted and actual – General Fund and for each major special revenue fund for which *annual* budgets are adopted. For its HOME fund program year budgets are adopted and no budget is adopted for the American Rescue Plan Fund, the major special revenue funds. These program year budgets, which are in effect through program conclusion (typically a three to five year period), are not required to be presented.

3. Cash, Cash Equivalents, and Investments

Primary Government

Pennsylvania statutes provide for the investment of governmental funds in certain authorized investment types, including U.S. Treasury bills, other short-term U.S. and Pennsylvania government obligations, and insured or collateralized time deposits and certificates of deposit. The statutes do not prescribe regulations related to demand deposits; however, they do allow the pooling of governmental funds for cash management and investment purposes, which the City does. In addition to the investments authorized for governmental funds, pension trust fund investments may be made in corporate stocks and bonds, real estate, and other investments consistent with sound business practices. Act 72 requires all governmental (public funds) deposits not insured by the Federal Depository Insurance Corporation ("FDIC") to be collateralized by the financial institution.

The deposit and investment policies of the City adhere to the state statutes. Deposits of the governmental funds are either maintained in demand deposits, Pennsylvania Local Government Investment Trust ("PLGIT") or pooled for investment purposes in certificates of deposit. The

deposits and investments of the three pension trust funds are administered by trustees and are held separately from those of other City funds.

GASB Statement No. 40, *Deposit and Investment Risk Disclosures*, requires disclosures related to the following deposit and investment risks: credit risk, custodial credit risk, concentration of credit risk, interest rate risk, and foreign currency risk. The following is a description of the City's deposit and investment risks.

Deposits

Custodial Credit Risk is the risk that, in the event of a bank failure, the City will not recover its deposit or will not be able to recover collateral securities that are in the possession of an outside party. The City does not have a formal deposit policy for custodial credit risk. As of December 31, 2021, the City's total deposits were $24,548,226. Of this amount, $750,000 was insured by the FDIC and $250,000 was insured by the SIPC. The remaining deposits of $23,548,226 were exposed to custodial credit risk, since the deposits were collateralized with securities held by the pledging financial institutions, but not in the City's name.

Investments

As of December 31, 2021, the City held the following investments in their employee pension funds:

Investments	Maturities	Fair Value
Certificates of deposit	Average of 3 years	$ 1,814,070
U.S Government Securities	Average of 5 years	14,931,728
Domestic Corporate Bonds	Average of 5 years	20,621,517
Investments subject to maturity		37,367,315
Equity securities		82,191,722
Total investments		$ 119,559,037

Credit Ratings

The City's investments had the following credit ratings:

Equity securities	NR	68.75%
Domestic Corporate Bonds	AAA to BAA3	17.25%
Certificates of deposit	NR	1.52%
U.S. Government Securities	AAA TO A3	12.48%

The City's investment policy limits investments as follows:

- Only corporate or tax exempt debt issues that meet or exceed a credit rating of A from Standard & Poor's and/or an A rating from Moody's may be purchased;
- Preferred stock must be rated A or better by Standard & Poor's and/or Moody's at the time of purchase;
- No issues may be purchased with more than 30 years to maturity.

Interest Rate Risk

As a means of limiting its exposure to fair-value losses arising from interest rates, the City's investment policy allows the investment manager to invest the fixed income portfolio from underperforming the fixed income index by more than 3 percent in any quarter.

Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. At December 31, 2001, all of the City's investments were held by Wells Fargo Advisors, LLC, and were insured by SIPC or to the extent that the City's investments exceed SIPC coverage, are insured up to $50,000,000 per account.

Fair Value Measurements

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The City has the following recurring fair value measurements as of December 31, 2021:

Investment by fair value level	Total Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Fixed income:				
Certificates of deposit	$ 1,814,070	$ -	$ 1,814,070	$ -
Domestic Corporate Bonds	20,621,517	-	20,621,517	-

Total Investments	$ 119,559,037	$ 82,191,722	$37,367,315	$ -

The valuation methods for recurring fair value measurements are as follows:

- Equity securities (common and preferred stocks) and mutual funds classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities.
- Fixed income securities classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices.

4. Due from Other Governments

The amounts reported in the City's various governmental and proprietary funds at December 31, 2021 as due from other governments is summarized below:

	State	Local	Total

	$ 636,250	$ 912,809	$ 1,549,059

5. Property Taxes

The City's property taxes are levied each January 1 on the assessed values as of the date of levy for all taxable real property located in the City. Property taxes are payable on the following terms: 2 percent discount February 1 through March 31; face amount April 1 through May 31; and 10 percent penalty after May 31. The assessed value at January 1, 2021, upon which the 2021 levy was based, was $948,720,522. The estimated market value was $1,143,327,667 making the assessed value 100 percent of the estimated market value.

The City is permitted by state law to levy taxes up to $25 per $1,000 of assessed valuation for general governmental services. The tax rate to finance general governmental services for the year ended December 31, 2021, was $16.22.

Tax Abatement Programs

The City provides property tax abatements under the following program: the Local Economic Revitalization Tax Assistance Program.

The Local Economic Revitalization Tax Assistance Program ("LERTA") provides property tax abatements to provide a tax break to new commercial properties in certain sections of the City of Williamsport for seven years as a way to stimulate business and economic growth. The abatements apply to the assessed value of improvements to a property. For the first two years, 100 percent of the improvements are abated, while 75 percent is abated in the third and fourth years. In years five and six, 50 percent is abated, and in the seventh year, the abatement is 25 percent.

The total taxes abated under the LERTA Program was $93,291, for the year ended December 31, 2021.

	Police Pension Fund	Firemen's Pension Fund	Officers' and Employees' Pension Fund
Inactive plan members or beneficiaries currently receiving benefits	82	76	86
Inactive plan members entitled to but not yet receiving benefits	4	-	-
Current employees	41	25	126
Total Membership	127	101	212
Number of participating employers	1	1	1

Funding Policy and Contributions

The contribution requirements of plan members are established and may be amended by the respective legislative bodies governing each of the plans (see Plan Descriptions). Officers and Employees plan participants are required to contribute five and one half percent of compensation to the plan. Participants in the Police and Fire plans are required to contribute five percent of compensation and an additional $1 per month until age sixty-five.

The contribution requirements of the City are determined in accordance with the Commonwealth of Pennsylvania's Municipal Pension Plan Funding and Recovery Act (Act 205 of 1984, {the "Act"}). The Act requires that annual contributions be based on a Minimum Municipal Obligation ("MMO"), as determined in connection with the Plans' biennial actuarial valuation. The MMO includes the normal cost, estimated administrative expenses and an amortization contribution of the unfunded actuarial accrued liability, less estimated member contributions and a credit equal to ten percent of the excess (if any) of the actuarial present value of assets over the actuarial accrued liability.

The Commonwealth of Pennsylvania provides an allocation of funds that must be used for pension funding. The City must fund any financial requirement establishment by the MMO that exceeds state/member contributions. For the year ended December 31, 2021, the combined City/Commonwealth contributions to the Police, Fire, and O&E plans were $1,841,909, $1,882,756, and $1,400,006, respectively, each of which was equal to the related MMO.

Deposits and Investments

The Plans allow funds to be invested in a wide range of cash and cash equivalents, equities, fixed income securities and pooled investments including open ended mutual funds, exchange traded funds, closed-end funds, and real estate investment trusts. The Plans Investment Policies do not specify target allocations across asset categories, but rather leaves this to the discretion of the Funds' managers. The Plans Investment Policies also do not specify long-term expected real rates of return on specific asset categories, but rather specify that the expected rate of return on the portfolios as a whole will be equal to the actuarially assumed rate of return which is currently 7.00 percent for the Police and Officers' and Employees' Pension Plans and 6.75 percent for the Firemen's Pension Plan.

Rate of Return

For the year ended December 31, 2021, the annual money-weighted rate of return on pension plan investments, net of pension fund investment expense, was 13.44 percent, 12.53 percent and 12.76 percent for the, Police Pension Funds, Firemen's, and Officers' and Employees respectively. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Deferred Retirement Option Program

The City offers Deferred Retirement Option Programs ("DROP") for its, Police, Firemen's, and Officers' and Employees Pension Plans that allows participants who qualify to continue working and still be entitled to a pension benefit in addition to a lump sum DROP amount. A description of the DROP terms for each plan are presented below:

	Police Pension Fund	Firemen's Pension Fund	Officers' and Employees' Pension Fund
Eligibility	Any member who is eligibility for a Normal retirement Benefit under the Plan.	Any member of the fire pension plan who is eligible for full retirement.	Any member who is eligible for a Normal Retirement Benefit under the Plan.
Term	The maximum period that a member can participate in the DROP is 5 years.	The maximum period of time that a member can participate in the DROP is 5 years.	The maximum period that a member can participate in the DROP is 5 years.
Pension benefit calculation	A calculation is made of the monthly Normal Retirement Benefit as of the DROP Participation Date.	Pensions are calculated for DROP participants at the time of beginning participation in the DROP.	A calculation is made of the monthly Normal Retirement Benefit as of the DROP Participation Date.
DROP Account	A member's DROP account shall consist of the total of the following: an amount equal to the participant's total monthly Normal Retirement Benefit, plus interest at the actual rate of return on the Fund. A member shall collect their DROP amount upon participants' termination of employment.	A member's DROP account shall consist of the total of the following: an amount equal to the total monthly pension amounts the member would have received, an amount equal to the member's mandatory pension contributions during the drop, and the actual rate of return between 1% and 4.5% per year. A member shall collect their DROP amount upon completion of the DROP period.	A member's DROP account shall consist of the total of the following : an amount equal to the participant's total monthly Normal Retirement Benefit, plus interest at the actual rate of return between 0% and 4.5% on the Fund. A member shall collect their DROP amount upon participants' termination of employment.

The balance of amounts held by the City's pension plans pursuant to the DROP terms described above are approximately $760,205, $727,480 and $1,035,262 for the Police Pensions, Firemen's, and Officers' and Employees, respectively at January 1, 2021, the City's most recent actuarial valuation.

The schedules of changes in the employer's net pension liability and related ratios, presented as required supplementary information following the notes to the financial statements, present multi-year trend information related to the funded status of the Pension Funds.

The significant changes in assumptions from the prior actuarial valuations include a change in the discount rate from 7.50 percent to 7.00 percent and Consumer Price Index assumption from 3.00 percent to 2.50 percent for the Police Pension Plan and the Officers' and Employees Pension Plan. The Firemen's Pension Plan discount rate was lowered from 7.00 percent to 6.75 percent and salary increase assumption from 5.00 percent to 4.75 percent. For retirements after January 1, 2021 pension benefits are limited to 75% of the retiree's current base salary plus service increment.

Actuarial Assumptions

The total pension liability above was determined by an actuarial valuation performed as of January 1, 2021, rolled forward to December 31, 2021 through the use of update procedures in accordance with paragraph 37 of GASB Statement No. 67, using the following actuarial methods and assumptions:

	Police	Firemen	Officers and Employees
Actuarial cost method	Entry age normal	Entry age normal	Entry age normal
Amortization method	Level percentage of projected payroll, closed	Level percentage of projected payroll, closed	Level percentage of projected payroll, closed
Actuarial assumptions:			
Investment rate of return	7.00%	6.75%	7.00%
Projected salary increase	4.50%	4.75%	4.50%
Consumer price index	2.50%	2.50%	2.50%
Asset valuation method	4 Year Smoothing	4 Year Smoothing	4 Year Smoothing

Mortality rates were based on the PubS-2010 and PubG-2010 Mortality Tables. The actuarial assumptions used in the January 1, 2021 valuation were based upon a study of plan experience, provisions in the current collective bargaining agreement, and future expectations.

Discount Rate

The discount rate used to measure the total pension liability for the Plans was 7.00 percent for the Officers' and Employees' and Police Plans and 6.75 percent for the Firemen's Plan. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that City contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the Pension Fund's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Discount Rate Sensitivity

The following is a sensitivity analysis of the net pension liability to changes in the discount rate. The table below presents the pension liability of the Pension Plans calculated using the

discount rate of 7.00 percent for Officers' and Employees' and Police and 6.75 percent for Fire, as well as what the net pension liability would be if it were to be calculated using a discount rate that is 1 percentage point lower (6.00 percent or 5.75 percent) or 1 percentage point higher (8.00 percent to 7.75 percent) than the current rate:

	1% Decrease (6.00% O&E/Police 5.75% Fire)	Current Discount Rate (7.00% O&E/Police 6.75% Fire)	1% Increase (8.00% O&E/Police 7.75% Fire)
Net pension liability, Police	$ 9,118,928	$ 2,164,336	$ (3,552,130)
Net pension liability, Fire	$ 8,171,751	$ 2,985,757	$ (1,283,880)
Net Pension liability, O&E	$ 5,654,376	$ 2,162,518	$ (792,623)

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources

For the year ended December 31, 2021, the Plan recognized pension expense of $3,510,973. At December 31, 2021, the Plan reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience - Police	$ 1,269,461	$ 250,184
Differences between expected and actual experience - Fire	1,024,030	-
Differences between expected and actual experience - O&E	81,983	4,147
Changes in assumptions - Police	2,339,741	-

As discussed in Note 1 to the Financial statements, the financial reporting entity does not include the River Valley Transit, a business-type activity and proprietary fund. The corresponding net pension liability and the deferred outflows/inflows of resources related to pensions allocated to the River Valley Transit were not included in the financial statements of the City, which represent the differences between the financial statements and the amounts listed above.

11. Defined Contribution (Section 457) Plan

The City offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The Plan is administered by Massachusetts Mutual Life Insurance Company. The Plan, available to all full-time City employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency, as defined.

12. Other Postemployment Benefits (OPEB)

Plan Description and Benefits Provided

The City provides postretirement medical, prescription drug and vision coverage for fire and police employees who retire with at least 12 years of services with their respective department and have attained the age of 50; and life insurance benefits to all employees who retire with at least 12 years of service. The City provides postretirement healthcare benefits for RVT employees who retire and have attained an age plus years of service amount equal to or greater than 85 years and have attained the age of 55. The cost of such medical, vision and life insurance coverage for retirees and spouses are primarily funded through annual appropriations from the City's General Fund and Enterprise Fund. These benefits are accounted for in accordance with GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. Retired employees who are ineligible under the above requirements and choose to participate in the medical plan must pay 100% of the composite rate cost of such coverage. The City of Williamsport, Pennsylvania OPEB Plan is a single employer defined benefit OPEB plan administered by the City. No assets are accumulated in a trust that meet the criteria in paragraph 4 of GASB Statement No. 75.

Employees Covered by Benefit Terms

At January 1, 2020, the following employees were covered by the benefit terms (excluding River Valley Transit):

Inactive participants - retired and disabled	178
Active plan members	140
Total	318

Total OPEB Liability

The City's total OPEB liability as of December 31, 2021 was $154,693,099, which was measured as of January 1, 2021, and was determined by an actuarial valuation as of January 1, 2020.

As discussed in Note 1 to the Financial statements, the financial reporting entity does not include the River Valley Transit. The corresponding Other Postemployment (OPEB) liability allocated to the River Valley Transit were not included in the financial statements of the City, which represent the differences between the financial statements and the amounts listed above. The amount reported in the financial statements for the OPEB liability was $148,195,208.

Actuarial Assumptions and Other Inputs

The total OPEB liability in the January 1, 2020 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Interest rate	3.00%
Inflation	2.50%
Discount rate	3.00%
Healthcare cost trends rates	Medical Rx - 7.75% in 2020, decreasing .50% each year through 2027, in which rates are at 4.50%. PPO Medical RX - 6.75% in 2020, decreasing .50% each% in perpetuity year through 2025, in which rates are at 4.5%. Post 65 Supplement Medical 4.5 Medicare Part B - 5.00% during 2020 and in perpetuity. Vision - 2.25% during 2020 and in perpetuity. Rates based on the Society of Actuaries Long-Run Medical Cost Trend Model

The discount rate was based on the index rate for 20-year tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher at January 1, 2020.

Mortality rates are determined using the 2010 Public Retirement Plan – Public Safety Mortality tables (PubS-2010) for Fire and Police, and all other employees rates are determined using the 2010 Public Retirement Plan – General mortality tables (PubG-2010).

The actuarial assumptions used in the January 1, 2020 valuation were based on the results derived form the Long-Range Demographic Assumptions for the 2020 Social Security Administration's Trustee Report.

Changes in assumptions. The discount rate reduced from 3.25% to 3.00%, medical and vision trend rates were updated accordingly.

As discussed in Note 1 to the Financial statements, the financial reporting entity does not include the River Valley Transit. The corresponding deferred outflows of resources and deferred inflows of resources allocated to the River Valley Transit were not included in the financial statements of the City, which represent the differences between the financial statements and the amounts listed above. The amount reported in the financial statements for the deferred outflows/inflows were $1,343,274 and $5,123,880, respectively.

Employer Contributions

The contribution requirements of plan members and the City are established and may be amended through negotiations between the City and the respective unions. The plan is funded on a pay-as-you-go basis, eligible retirees premiums are paid annually to fund the health care benefits provided to current retirees. Retirees are currently not required to contribute to the plan. The City made estimated contributions to the plan of $4,018,825 for the year ended December 31, 2021. Contributions are actuarially determined in accordance with GASB Statement 75.

13. Fund Balance Classifications

The City presents its government fund balances by level of constraint in the aggregate on its balance sheet – governmental funds. The individual specific purposes of each constraint are presented below:

14. Related Organizations

The City's officials are responsible for appointing certain members of the governing boards of other organizations; but the City's accountability for these organizations during 2021 did not extend beyond making the appointments. A majority of the boards of the following organizations are either appointed by City Council or recommended and nominated by the Mayor and approved by City Council:

- Williamsport Municipal Water Authority
- Williamsport Sanitary Authority

15. Commitments and Contingent Liabilities

Litigation

The City has been named as a defendant in various lawsuits which relate to the day-to-day operations of City government. In the opinion of management and legal counsel, the resolution of these lawsuits will not have a material adverse effect on the City's financial position or results of operations.

In addition, the City participates in a variety of other federal and state assisted grant programs. These programs are subject to program compliance audits by the grantors or their representatives. The City is potentially liable for any expenditure that may be disallowed pursuant to the terms of these grant programs.

Environmental

The City maintains a fuel storage facility. The City is potentially liable for any expenditure associated with compliance to mandated regulations and any assessments by regulatory authorities related to this facility or other similarly situated facilities. No estimate is currently available for any potential liability for expenditures associate with this fuel storage facility.

Insurance

The City has elected to self-insure its employee medical insurance plan. The City has limited this self-insurance liability through the purchase of catastrophic reinsurance coverage which will reimburse the City for any medical costs over $65,000 per covered individual per year. The City believes that it has adequately provided for all asserted claims and has no knowledge of unasserted claims for which it has not provided. The City's liability for all asserted and estimated unasserted claims was $267,945 at December 31, 2021. The City has a surplus deposit related to the plan in the amount of $575,496 at December 31, 2021. The cost of medical coverage for employees was approximately $5,768,057 in 2021.

State and Federal Criminal Investigation

During the audit period through 2022, there was a transition of fiscal and administrative personnel at the City. Due to the findings of an internal financial investigation, the City communicated with appropriate parties and a grand jury was convened. The City has been and continues to be under state and federal criminal investigations since February of 2020. Numerous financial records, extending over a 10-year period, have been provided to investigators. The investigation is ongoing and it is expected that the resolution of this investigation will have a material adverse effect on the City's financial position.

16. Subsequent Events

Effective July 1, 2022 the River Valley Transit Authority became a separate legal entity from the City. In 2024, the Redevelopment Authority separated operations from the City.

17. Restatement of Net Position

The following restatement was necessary to reflect the adoption of the provisions of GASB Statement No. 84, "Fiduciary Activities." The City has changed its manner of accounting for its fiduciary funds. This change for fiduciary activities is reported as a change in accounting principle and is reflected as a restatement of beginning Net Position in the fiduciary fund financial statements.
